## The Problem

# The Onboarding Challenge

### Employee Isolation

New hires feel disconnected without proper introduction systems and team integration

### Process Complexity

Manual onboarding creates confusion, delays, and inconsistent experiences

### Delayed Productivity

Slow ramp-up times mean talent sits idle instead of contributing quickly

## The Solution

# Welcome to New Joinee

A unified digital hub that transforms new hires into engaged team members instantly, powered by Microsoft 365.

### Automated Welcome

Auto-publish personalized announcements on day one

### Team Integration

Seamless Microsoft Teams collaboration

### Custom Workflows

Automate onboarding with Power Platform

## Enterprise-Grade Specifications
